SUMMARY

Computer Engineering undergraduate at Amrita Vishwa Vidyapeetham, Chennai (CGPA 8.08 after Semester 4) with a strong foundation in data structures, algorithms, and object-oriented design — backed by 103+ solved LeetCode problems. Proficient in Python, Java, and C++, with hands-on experience building and deploying full-stack and AI-powered applications using FastAPI, React, and SQL/NoSQL databases. HackerRank SQL Advanced Certified. Seeking a Software Development Engineer internship role.

TECHNICAL SKILLS

Languages	Python · Java · C++ · C · Haskell · SQL · VHDL
CS Core	Data Structures & Algorithms · Object-Oriented Design · Operating Systems · DBMS · Computer Architecture
Databases	SQL · PostgreSQL · MySQL · NoSQL (vector stores: FAISS, ChromaDB) · RDBMS
Web / Backend	FastAPI · React · REST APIs · HTML · CSS · JavaScript · Bootstrap
AI / Dev Tools	LLM Integration · RAG · OpenAI API · Prompt Engineering · Git · GitHub · Linux · Bash

EXPERIENCE

Prompt Engineering Intern — SkillCraft Technology (Remote) Jan 2026 – Feb 2026
India

- Engineered 4 structured LLM prompt workflows across summarization, classification, translation, and extraction — all 4 accepted in production and commended by the Tech Lead within a 2-month window.
- Applied chain-of-thought, role prompting, and few-shot techniques across 4 NLP tasks, cutting prompt iteration cycles by ~40%.
- Earned a formal Letter of Recommendation from the Tech Lead for delivering all 4 tasks on time with production-level quality.

PROJECTS

AI Knowledge Assistant — RAG-based Document Q&A 2026
FastAPI · React · FAISS/ChromaDB · OpenAI · REST APIs

- Designed and built a FastAPI backend with REST endpoints for document upload, chunking, and query, paired with a React frontend chat interface.
- Implemented a retrieval pipeline using vector embeddings (FAISS/ChromaDB) for semantic search, returning cited answers; runs locally as a working prototype.

Deep Learning-Based Real-Time Recommendation System 2026
Python · Algorithm Design · Recommendation Systems

- Designed and implemented a heuristic-based ranking algorithm and inference pipeline for real-time personalized recommendations (final-year project, ongoing).

StyleMind AI — AI Personal Stylist (ShonoWear v5) 2026
FastAPI · React · PostgreSQL · Computer Vision · LLM Integration

- Built a full-stack styling app with a PostgreSQL-backed data model for a virtual wardrobe, integrating pretrained computer vision models and an LLM-based chat interface for recommendations.

EDUCATION

B.Tech, Computer Science & Engineering — Amrita Vishwa Vidyapeetham, Chennai Oct 2024 – Present
CGPA: 8.08 (after Semester 4)
Relevant coursework: Data Structures & Algorithms · Operating Systems · DBMS · Computer Architecture · Object-Oriented Programming

Class XII & X (CBSE) — Achariya Siksha Mandir, Pondicherry 2020 – 2024
75% (Class X and XII)

CERTIFICATIONS & COURSES

HackerRank SQL Advanced (also SQL Intermediate, SQL Basic, Python Basic)

IBM Generative AI in Action · Infosys GPT-3 for Developers · AI for Everyone · AI Foundations · UNIX & Linux Foundations

ACHIEVEMENTS

- Solved 103+ LeetCode problems spanning arrays, strings, linked lists, and trees.
- Delivered all 4 prompt engineering tasks within 2 months; received a formal Letter of Recommendation.
- Maintained CGPA 8.08 while completing 5+ certifications and building 3 full-stack/AI applications.
