SUMMARY

Second-year Computer Engineering student at Amrita Vishwa Vidyapeetham with hands-on experience in Python, C, data structures, and generative AI/prompt engineering. Completed a certified Prompt Engineering internship delivering 4 production-grade LLM workflow tasks commended by the Tech Lead. HackerRank SQL Advanced Certified; IBM and Infosys certified in Generative AI. Solved **103 problems on LeetCode** across arrays, strings, and data structures. Seeking a software engineering or AI/ML internship to apply technical skills in real-world projects.

TECHNICAL SKILLS

Languages	Python · C · C++ · Java · Haskell · VHDL · SQL
AI / ML	Prompt Engineering · LLMs · GPT-3/4 · Generative AI · NLP · Chain-of-Thought
Web	HTML · CSS · JavaScript · Bootstrap · GitHub Pages
Databases	MySQL · RDBMS · Microsoft Fabric SQL
Tools	Git · GitHub · Linux · Bash · Shell Scripting
CS Core	DSA · OOP · Operating Systems · DBMS · Computer Architecture

EXPERIENCE

Prompt Engineering Intern — SkillCraft Technology (Remote) <i>India</i>	<i>Jan 2026 – Feb 2026</i>
- Engineered 4 structured LLM prompt workflows for summarization, classification, and translation; all accepted and commended by the Tech Lead. - Applied chain-of-thought, role prompting, and few-shot techniques to maximize model accuracy across real-world NLP tasks. - Received a formal Letter of Recommendation from the Tech Lead for exceptional performance and problem-solving aptitude.	

PROJECTS

ShonoWear v4.0 — E-Commerce Fashion Platform <i>HTML · CSS · JavaScript · GitHub Pages</i>	<i>2025</i>
- Built and deployed a multi-version streetwear e-commerce site (v1.0 → v4.0) with product discovery, responsive UI, and curated navigation; hosted on GitHub Pages. - Iterated across 4 major releases demonstrating full ownership from design to deployment.	
Data Structures Practice Repository <i>Python · C · GitHub</i>	<i>Nov 2025</i>
Implemented 50+ DSA programs — stacks, queues, linked lists, trees, and more — in both Python and C using pointer-based memory management; version-controlled on GitHub.	
SkillCraft Prompt Engineering Tasks <i>Prompt Engineering · LLMs · Generative AI</i>	<i>Jan – Feb 2026</i>
Designed 4 structured prompt tasks using chain-of-thought reasoning, role prompting, and output formatting for real-world LLM workflows.	
Personal Portfolio — kavin-js.github.io <i>HTML · CSS · GitHub Pages</i>	<i>2025</i>
Designed and deployed a personal portfolio showcasing projects, skills, and academic background; actively maintained under MIT License.	

EDUCATION

B.Tech, Computer Engineering — Amrita Vishwa Vidyapeetham <i>Relevant: DSA · OS · DBMS · Computer Architecture · OOP · Algorithms</i>	<i>Oct 2024 – Present</i>
Class XII & X (CBSE) — Achariya Siksha Mandir, Pondicherry <i>75% (both Class X and XII)</i>	<i>2020 – 2024</i>

CERTIFICATIONS & COURSES

HackerRank	SQL Advanced · SQL Intermediate · SQL Basic
IBM	Generative AI in Action
Infosys	GPT-3 for Developers · AI for Everyone · AI Foundations · UNIX & Linux Foundations

ACHIEVEMENTS

- Solved **103 problems on LeetCode** spanning arrays, strings, linked lists, and trees — consistent daily practice for technical interview preparation.
- Received formal **Letter of Recommendation** from Tech Lead at SkillCraft Technology for outstanding performance during Prompt Engineering internship.
- Delivered **4 complete prompt engineering projects** within 2 months covering the full LLM workflow design and evaluation cycle.
